Our Order History Reports feature allows you to download a complete history of your physical orders.

At this time, you cannot download a complete history of digital orders (including Kindle, Digital Music, etc.).

If you'd like, you can create Order History Reports for your physical orders using the link below:

<https://www.amazon.com/gp/b2b/reports>

The report is in a "csv" format, which is compatible with Microsoft Excel.

Depending on the date range you select and the number of orders, the time it takes to generate an order history report can range from 30 seconds to 30 minutes.

Very large reports may take up to 24 hours to create.
